## StrataTex Geotextile

StrataTex (ST Series) is a needle-punched nonwoven geotextile made of 100% polypropylene staple fibers, which are formed into a random network for dimensional stability. StrataTex (SW Series) geotextile fabrics are woven polypropylene materials offering optimum performance when used in stabilization applications. StrataTex is engineered to be mechanically and chemically durable, in both the harsh construction installation phase and in aggressive soil environments (pH range from 2-13). Produced from first quality raw materials, they provide the perfect balance of strength and separation in styles capable of functioning exceptionally well in a wide range of performance requirements. Unless indicated below, all listed properties are Minimum Average Roll Values:

PROPERTY	UNIT	ASTM TEST METHOD	ST-131 3.1 oz	ST-135 3.5 oz	ST-140 4.0 oz	ST-142 4.5 oz	ST-160 6.0 oz	ST-170 7.0 oz	ST-180 8.0 oz	ST-110 10.0 oz	SW200 4.0 oz	SW250 5.0 oz	SW315 6.3 oz
